Statement of Purpose: The SIGGRAPH 2000 Authorization Form explains the uses SIGGRAPH makes of presented material and requires you to acknowledge that you have permission to use this material. This may involve seeking clearance from your employer or from others who have loaned you material, such as videotapes and slides, or who may have licenses you the right to use their intellectual property rights in your material, such as any software, copyright, trademark, trade secret, or patent. This form helps prevent situations whereby SIGGRAPH 2000 presentations include material without permission that might lead to complaints or even legal action. SIGGRAPH 2000 presenters must complete, sign, and return the form to the program's chair as a condition of acceptance for participation in the program. In addition, this form asks if ACM SIGGRAPH may use your materials for conference and organization promotional material in exchange for full author/artist credit information.
